

Patricia Shiloh Kanneh

Summary

Frontend developer building scalable web applications using React and TypeScript. Experienced in developing full-stack e-commerce systems, AI-driven interfaces, and admin dashboards. Focused on performance optimization and clean architecture. Seeking frontend internship opportunity to contribute to real-world products.

Skills

- JavaScript (ES6+)
- HTML5
- CSS3
- React
- Redux
- React Query
- Redux Toolkit
- Context API
- Tailwind CSS
- GSAP
- Framer Motion
- Lazy Loading
- Responsive Design
- Accessibility Principles
- Firebase
- REST APIs
- Gemini API
- Git
- GitHub
- Vite
- Npm

Experience

Frontend Developer 01/2025 - Current

Freelance Frontend Developer, Accra, Ghana

Develop responsive web applications using React and TypeScript
Collaborated with clients to gather project requirements and design specifications.
Optimized website performance through code refinement and image compression.
Integrated third-party APIs to enhance website functionality and features.
Maintained version control using Git for efficient project management.
Collaborated with back-end developers to integrate user interface elements into applications.

Assistant Membership Lead

Flutter Flow Ghana

Organized membership drives to increase community engagement and participation.
Developed and maintained relationships with members to enhance satisfaction and retention.
Collaborated with marketing team to promote membership benefits through social media campaigns.

Education and Training

Computer Science

Ghana Communication Technology University

Projects

- Cal-Buy – Full-Stack E-Commerce Platform**

React | TypeScript | Express | Redux Toolkit| React Query| Axios|

<https://www.calbuygh.com>

 - Built responsive e-commerce platform with smart search and product filtering
 - Implemented cart system with quantity management and checkout validation (React Hook Form + Zod)
 - Integrated jsPDF for downloadable invoice generation
 - Developed admin dashboard for product and order management
 - Configured backend validation, CORS, and email processing
- YumGenie AI – AI Food Ordering Platform**

React | TypeScript | Vite | Gemini API

 - Developed AI-powered chatbot for conversational food ordering
 - Implemented modular component architecture and centralized state management
 - Integrated Gemini API for real-time intelligent responses
 - Optimized build performance using Vite and TypeScript
- Rehoboth Floral – Full-Stack Flower E-Commerce Platform**

React | Express | TypeScript

<https://www.rehobothflorals.com>

 - Developed full-stack e-commerce platform deployed to production
 - Implemented environment configuration, CORS, and security headers (Helmet.js)
 - Built responsive UI with optimized asset handling
- Nimbus Admin Panel – Content Management Dashboard**

React | Firebase | Tailwind CSS

 - Built secure admin dashboard with Firebase Authentication
 - Implemented real-time content and image management
 - Designed scalable routing and reusable components

Technical Skills

Frontend: React, JavaScript (ES6+), TypeScript, Redux Toolkit, React Query, Context API

Styling & UI: Tailwind CSS, GSAP, Framer Motion, Responsive Design, Accessibility

Backend & APIs: Node.js, Express.js, REST APIs, Firebase, Gemini API

Tools: Git, GitHub, Vite, npm
